

## **Danielle O'Hallisey**

Danielle O'Hallisey is the owner/operator of Calculated Technology, LLC, a Montpelier electro-mechanical design firm specializing in the design and verification of illumination systems. Calculated Tech has twice been the beneficiary of Innovative Fund resources; in 2009 for work leading to greater energy efficiency in lighting fixtures, and most recently for work on a low-cost means to concentrate sunlight for photovoltaic, solar heating and solar CHP systems.
