

# VERMONT FOREST INDICATORS DASHBOARD

Combining dozens of key datasets into a snapshot of the overall status of Vermont's forests

## STRUCTURE

The size, density, diversity and arrangement of trees in the forest, and the pattern of that forest on the landscape.

3.6<sub>5</sub>

## CONDITION

The overall health of the trees within the forest and the lushness of the forest canopy across the landscape.

3.3<sub>5</sub>

2022

**OVERALL SCORE**

3.7<sub>5</sub>

Score is trending flat over time

## STRESSORS

Stress agents acting on our forests, impacting growth, regeneration, and survivorship.

3.7<sub>5</sub>

## SERVICES

The many economic, social, ecological, and aesthetic services forests provide.

4.2<sub>5</sub>

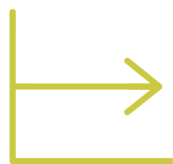

### Score Trends

■ Upward Trend ■ Flat Trend ■ Downward Trend

The color of the score denotes the long-term trend
