Ever wonder what an Autopsy is? Who gets an autopsy? Why do we need autopsies? Are they really like the autopsies you see on TV shows? Join us for an interactive, hands on workshop and find out the truth about autopsies. In this Café our team of skilled Pathologists will lead you through hands on activities designed to answer your questions, peak your curiosity and allow you to act as a pathologist and determine the cause of death for a series of patients. Don't miss this truly unique opportunity to get an in depth look at autopsies!

### ABOUT OUR SPEAKERS

Faculty and Residents from the **University of Vermont Medical Center, Department of Pathology and Laboratory Medicine** will lead this interactive session.

**What is a Teen Science Café?** It is a free, fun way for teens to explore science, engineering and technology with local scientists, engineers and technology experts. Teens participate in informal discussions and hands-on activities to learn about different topics. And, there is always free food! Planned and run by teens for teens.

**Questions?** Contact [lauren.traister@uvm.edu](mailto:lauren.traister@uvm.edu)

*To request a disability-related accommodation to participate in this program, please contact the 4-H Office at 802-888-4972 or [lauren.traister@uvm.edu](mailto:lauren.traister@uvm.edu) no later than September 2, 2022 so that we may assist you.*
