

# FACULTY DEVELOPMENT OPPORTUNITY

## Optimizing Inclusive and Culturally Responsive Mentoring

An introductory seminar and an interactive workshop designed to introduce evidence-based approaches, including the NAS *Science of Effective Mentorship in STEMM* report, to broaden participation of culturally diverse groups in STEMM fields. Overall, participants will gain confidence in working with mentees from diverse backgrounds, add new strategies to their mentoring toolbox, and gain access to available resources to support quality mentorship at their home institutions.

**Kelly Diggs-Andrews, Ph.D.**

In addition to being a trained neuroscientist, cell biologist, and translational researcher, Diggs-Andrews is a Master Facilitator with the National Research Mentoring Network (NRMN) and the Center for the Improvement of Mentored Experiences in Research (CIMER). Since 2016, she has worked with over 75 colleges and organizations.
